FOR INDUSTRIAL PACKAGING

## THE BIG EASY

APC 4-L PAINT CAPS

- 40% bigger cover opening for easy color tinting, mixing and dispensing
- Big handle with pull ring for smooth, easy removal - no tools required
- Positive seal outperforms plug fit closures - helps prevent paint skinning
- Unique patented design that's easy to remove and reseal, over and over

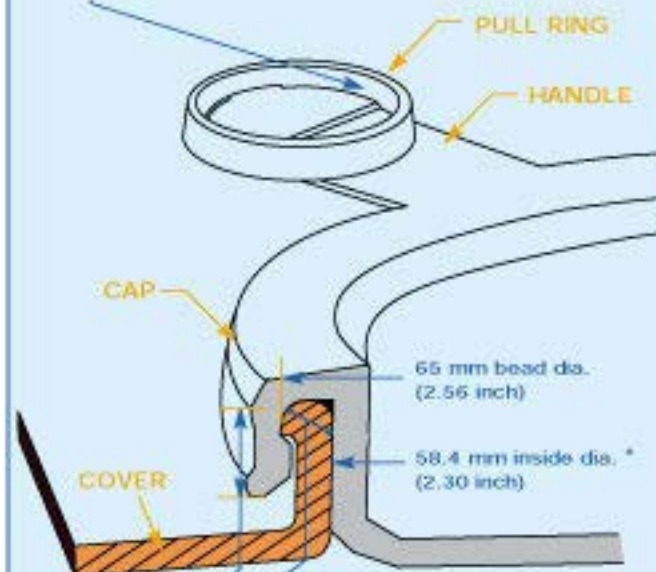

---

or contact our USA Sales Agents: Packaging Alliance  
1500 E. Broad Street, Mansfield, Texas 76063  
Tel: 817-477-2943 Fax: 817-477-5722 [www.packagingalliance.org](http://www.packagingalliance.org)

Tamper evident tabs must be broken to use finger pull ring.

\* 40% larger than 1.93 inch dia. tint plug for easier paint tinting and dispensing.

Cap has a deep channel for a tight snap fit around the cover beaded rim. Large inside and outside contact surfaces for better seal performance.

5 mm (0.20 inch) minimum cover bead height. Fits most standard 65 mm (2.56 inch) diameter plastic cover openings.

APC-4 closures are molded from virgin low density or linear low density polyethylene resin.
