APC-6 PRODUCT SPECIFICATION 9-6

| | |
|-----------------------------|---|
| DESCRIPTION | APC-6 PLUG VENT PAIL CLOSURE |
| PART NUMBERS | APC- 6 |
| PART DRAWINGS | AD9-6.1 Rev 3 APC-6 Plug Vent & Cover Opening |
| CLOSURE SIZE | 0.760 inch +/- 0.010 inch seal diameter 19.3 mm +/- 0.25 mm seal diameter |
| COVER OPENING | 0.715 inch +/- 0.005 inch seal diameter 18.2 mm +/- 0.25 mm seal diameter AD9-6.1 Rev 3 APC-6 Plug Vent & Cover Opening |
| CLOSURE WEIGHT | 4 grams +/- 1 |
| MATERIAL & COLOR | FDA approved virgin resin EVA co-polymer LDPE, natural |
| TAMPER EVIDENCE | Open hinged cap. Press down on inner tab to break open air vent. Reseal cap after dispensing liquid. |
| INSTALLATION | Press to fit onto warm or cold molded plastic covers |
| PERFORMANCE * | Hydrostatic leak test target: 20 kPa (3 psi) water for 5 minutes |
| APPLICATION * | For faster and smoother dispensing of petroleum lubricants and other viscous liquids, in particular at low temperature. Use in combination with APC-2 pail closures. Air enters through the plug vent as liquid exits through the pail spout. |
| CONTROL OF CHANGE | Specifications are subject to change. APC-6 buyers on record will be notified. |

* These product specifications are intended as a guide only. Closures are manufactured under an ISO 9001:2015 management program. Sample closures are available for product testing. It is the responsibility of the buyer and filler to ensure the closure meets the product compatibility and performance requirements for both regulated and non-regulated packaging applications.
